## Classification of Roads in Suriname

### 1. INTRODUCTION

In the framework of the Local Government Strengthening Program (DLGP) the Government of Suriname is in a process of certification of five pilot Districts: Wanica, Nickerie, Para, Commewijne and Marowijne.

One of the components of DLGP concerns training projects in rehabilitation and maintenance of secondary and tertiary roads in the five districts.

This report aims at dividing the roads in classes based on their function.

### 2. RESPONSIBILITY FOR ROADS.

In Suriname roads may be constructed by four different Ministries or by private companies. Responsibilities of Ministries are laid down in the Government Decree called: “Staatsbesluit van 10 oktober 1991, houdende instelling en taakomschrijving van Departementen van Algemeen Bestuur ( Besluit Taakomschrijving Departementen 1991) “.

Generally in Suriname roads may be constructed by four Ministries or by private companies. The Ministry of Public works is responsible for construction and maintenance of all primary roads and all secondary and tertiary roads in Paramaribo. The Ministry of Regional Development is in charge of the construction and maintenance of all secondary and tertiary roads, except those in the district Paramaribo. Although the Ministry of Agriculture, Animal Husbandry Fishery and the Ministry of National Resources legally have no responsibility with regard to construction and maintenance of roads, historically these ministries remained in charge of the following tasks, respectively:

- The construction and maintenance of roads in Agricultural Land reclamation Projects.
- The construction and maintenance of roads for forestry development in the hinterland.

Private companies construct roads in land development projects according to requirements of the Ministry of Public Works and transfer the maintenance obligation of public roads to this Ministry.

**Table 1 shows an indicative general view of the road network in Suriname (km).**

Ministry	Asphalt	Laterite	Concrete	Shell sand	Total
Public Works	440	-	135	320	895
Regional Development	-	510	-	1600	2110
Natural Resources	-	50	-	-	50
Agriculture	-	-	-	60	60
Road Authority	685	700	45	25	1455
Total	1125	1260	180	2005	4570

According to the law of 25 July 1995, which became operative on 1 April 1998, the road Authority is responsible for all primary roads in Suriname. All secondary and tertiary roads in Paramaribo belong to the responsibility of the Ministry of Public Works.

Finally the Ministry of Regional Development is responsible for the secondary and tertiary roads in the districts and the interior. The purpose of the decentralization process under DLGP is to transfer the responsibility for the secondary and tertiary roads to the respective districts.

### 3. CLASSIFICATION

The roads in Suriname can be sub-divided into five classes:

- Class I. Primary roads: paved or unpaved main roads with a transportation function at national level. These roads are defined specifically by Government Decree (Staatsbesluit van 9 oktober 2001, houdende vaststelling van de Primaire wegen in Suriname).
- Class II Paved secondary roads for access within a certain area, collector roads connecting several tertiary roads.
- Class III. Unpaved secondary roads, with the same function as Class II roads.
- Class IV. Tertiary roads, generally unpaved for access to agricultural and/or residential lots.
- Class V. Tertiary roads as Class IV but due to bad construction and/or maintenance not accessible during extended periods.

In general traffic volumes and vehicle loads are so low in the rural areas, that it is proposed to maintain unpaved tertiary roads (Class IV) up to the agricultural farm or residential areas, connected by collector roads of Class III. In some cases these may be upgraded to Class II, prompted by a foreseen future development of traffic flows. Finally it is proposed that all Class V roads should be upgraded to all weather Class IV roads.

### 4. DESIGN CRITERIA FOR CLASS II, CLASS III AND CLASS IV ROADS.

The structural design of these roads have to meet the following criteria:

- The standards for low-traffic volume roads.
- Construction and maintenance principles well known and easily applicable at local level.

**Table 2 basic design criteria for Class II to IV roads.**

	<b>Class II</b>	<b>Class III</b>	<b>Class IV</b>
Base width	7.20 m	7.20 m	6.20 m
Pavement width	6.20 m	-	-
Carriage width	-	6.20 m	5.20 m
Shoulders	2.50 m	2.50 m	2.00 m
Base (klink sand)	0.50 m	0.50 m	0.40 m
Top layer (shell and or laterite)	0.15 m	0.15 m	0.15 m
Pavement (asphalt)	0.08 m	-	-
Concrete Blocks:			
River sand	0.10 m	-	-
Blocks	0.10 m	-	-
Minimum depth to water	0.30 m	0.30 m	0.30 m

Cross sections of the roads constructions are shown in drawing no 1.

## **5. PRIMARY, SECONDARY AND TERTIARY ROADS PER DISTRICT.**

In section 5.1 to 5.5 of this report a summary is presented of Primary, Secondary and Tertiary roads in the five District.

**Table 5.1: Overview of all roads in district Nickerie**

	<b>Sand km</b>	<b>Concrete km</b>	<b>Asphalt km</b>	<b>Total km</b>

### **5.1 Primary roads District Nickerie:**

In the District Nickerie we have the following primary roads

- The Oost-West Verbinding from the border near Wageningen to Nw. Nickerie with a length of ca. 60 km.
- The main road to Wageningen from the Oost-West Verbinding to Centrum Wageningen with a length of ca. 3.6 km
- The road to the Ferry from Euro Polder to Zuiddrain with a length of ca. 30 km.
- The Achterdam in Nw Nickerie with a length of ca. 1 km.
- The N.N. van Dijkstraat from Achterdam to G.G. Maynardstraat with a length of ca. 1 km.
- The Oost Kanaalstraat from Achterdam to G.G. Maynardstraat with a length of ca. 1 km.
- The West Kanaalstraat from Achterdam to the G.G. Maynardstraat with a length of ca. 1 km.
- The Margrethenburgstraat from A.K. Doergastraat to G.G. Maynardstraat with a length of ca. 1 km.

- The G.G. Maynardstraat from the N.H. van Dijkstraat to the airport with a length of ca. 5 km.

•

## 5.2 Primary roads District Wanica

In the District Wanica we have the following Primary roads:

- The Middenpad van Kwatta with a length of ca. 8 km.
- The Commissaris Weytinghweg with a length of ca. 9 km.
- The Vierde Rijweg en Leiding 9A from Middenpad van Kwatta to Commissaris Weytinghweg with a total length of ca. 4 km
- The Bomaweg from Commissaris Weytinghweg to Welgedacht A weg with a length of ca. 7 km.
- The Nieuw Weergevondenweg from the border to the Bomaweg with a length of ca. 7 km.
- The Welgedacht A weg from the Indira Gandhiweg to the Bomaweg with a length of ca. 10 km.
- The Welgedacht C weg and Verlengde Welgedacht C weg from the Indira Gandhiweg to the Bomaweg with a length of ca. 9 km.
- The Indira Gandhiweg from Vierkinderenweg to Palisadeweg with a length of ca. 13 km.
- The Javaweg from Indira Gandhiweg to Reebergweg with a length of ca. 8 km.
- The Weg naar Santigrón from Reebergweg to Santigrón with a length of ca. 10 km.
- The Sir Winston Churchillweg from the border at Dijkveld to the border at Commissaris Simonspolder with a length of ca. 17 km.
- The Martin Luther Kingweg from Livorno to Concordia with a length of ca. 14 km.
- The Tout Lui Fautweg – Verlengde Tout Lui Fautweg, Wilhelminaweg, Cassialaan with a total length of ca. 9 km.

## 5.3 Primary roads District Para

In the District Para we have the following Primary roads:

- The Indira Gandhiweg and Kennedy Highway from Palisadeweg to Zanderij with a total length of ca. 21 km.
- The Martin Luther Kingweg from Concordia to Paranam with a length of ca. 6 km.
- The Afobakaweg from Paranam to Kraka with a length of ca. 30 km.
- The Sir Winston from Simonspolder to La Vigilantia with a length of ca. 6 km.
- The Meursweg from La Vigilantia to Onverwacht with a length of ca. 12km.
- The zuidelijke oost-west Verbinding from east border to the west border with a length of ca. 150 km.

#### 5.4 Primary roads District Commewijne

In the District Commewijne we have the following Primary rods:

- The Oost-West Verbinding from the bridge accors the Suriname river to km 60 with a length of ca. 60 km.
- The Commissaris Thurkhowweg from Meerzorg to Nieuw Amsterdam with a length of ca. 11 km.
- The Commissaris Roblesweg from Nieuw Amsterdam to Zorgvliet with a length of ca. 10 km.
- The Abdoellakhan Hussainweg from Zorgvliet to Alkmaar with a length of ca. 1,5 km.
- The Zuster Jensweg from Zorgvliet to Alkmaar with a length of ca. 2 km.
- The Dominee Legeneweg from Alkmaar to Spieringshoek with a length of ca. 8 km.
- The Pandit Tilakdhariweg from Alkmaar to Tamanredjo with a length of ca. 9 km.
- 

#### 5.5 Primary roads District Marowijne

In the District Marowijne we have the following Primary roads:

- De Oost-West Verbinding van Commewijne to Albina, with a length from ca. 85 km.
- De weg Moengo-Langatabbetje with a length of ca. 90 km
- De zuidelijke Oost-West Verbinding from the Commewijne river tot de Patamacca with a length of ca. 40 km.
- De weg oost-West Verbinding to centrum Moengo with a lengh of ca. 2 km.

#### 5.6. Secondary roads district Nickerie

**In the District Nickerie we have the following secondary roads.**

- The Parmessarweg and the Fredericiweg from Hampton Court Polder to H.N. van Dijkstraat with a length of ca. 17 km
- The A.K. Doergastraat from Waterloostraat to Margrethenburgstraat with length of ca. 2 km
- The Graderweg and Rambaran Mishreweg from Margreth to the Corantijnrivier with a length of ca. 8 km.
- The Beatrixweg from Gemaalweg to de H.D. Soekhoeweg with a length of ca 4 km.
- The Bastiweg from Gemaalweg to the H.D. Soekhoeweg with a length of ca 4 km.
- The Vuurtorenweg and the Gemaalweg from the Zeedijk to the Koulendam with a length of ca 6 km.
- The Gouverneurstraat from Waterloostraat to Margrethenburgstraat with a length of ca 2 km.
- The H.D Soekhoeweg with een length of ca. 5 km
- The Ritsweg, Molenweg and the Pleinweg to Wageningen with a total length of ca. 3 km
- The Dehliweg, Cassaveweg, Hewittweg with a total length of ca. 5 km.
- The Awadhoseinweg with length of ca. 4 km
- The Pisang- Kapokweg with a length of ca 3 km
- The Bacovendam with a length of ca. 3 km

### 5.7 In the District Wanica we have the following secondary roads:

- The Sophiaslustweg from Derde Rijweg to the Vijfde Rijweg with a length of ca. 8,5 km
- Leiding 10 from Sophiaslustweg to Commissaris Weytinghweg including the connection with Leiding 9<sup>A</sup> with a total length of ca. 4 km.
- Leiding 10<sup>A</sup> from Sophiaslustweg to Commissaris Weytinghweg with a length of ca. 3 km.
- Leiding 11<sup>A</sup> Menkenbergstraat – Hendrikstraat- Derde Rijweg with a total length of ca. 6 km.
- The Mawakaboweg from the Nieuw Weergevondenweg to Helena Christinaweg with a length of ca. 7 km.
- The Reebergweg from Helena Christinaweg to Javaweg with a lenghe of ca. 4 km.
- The Magentakanaalweg from Nieuw Weergevondenweg to Helena Christinaweg with a total length of ca. 7 km..
- The Poerwodadiweg from Helena Christinaweg to Libanonweg with a length of ca. 8 km
- The Helena Christinaweg from Indira Gandhiweg to Bomaweg with a length of ca. 11 km.
- The Lelydorperweg and Tawajariweg from Sumatraweg to Poerwodadiweg with a lengh of ca. 6 km
- The Sumatraweg from Vredenburgweg to de Lelydorperweg with a length of ca. 5 km
- The Tout Lui Fautkanaalweg from Sir Winston Churchillweg to Indira Gandhiweg with a length of ca.9 km.
- The Livorno Middenweg from Sir Winston Churchillweg to Nieuwe Grondweg with a length of ca. 5 km
- The Livornoweg, Beekhuizenweg from Ramgoelamweg to Sitalweg with a total length of ca. 5 km.
- The Adhinweg from Sir Winston Churchillweg to Martin Luther Kingweg with a length of ca. 2 km
- The Malangweg from Wilhelminaweg to Verlengde Zwampweg with a length of ca. 5 km.
- The Domburg Middenweg with a length of ca. 2 km.

### 5.8 In the District Para we have the following secondary roads:

- The Loswijkstraat and Bernhard Vyentweg at Onverwacht with a total length of ca. 600 m
- The Kensenhuysstraat at Osembo with a length of ca. 700 m
- The Akrumstraat with a length of ca. 500 m
- The road to Matta with a length of ca. 6 km
- The road to Bigi Poika with a length of ca. 7 km.

### 5.9 In the District Commewijne we have the following secondary roads :

- The road from Belwaarde to Nieuw Amsterdam including Pronkweg with a length of ca. 5 km.
- The road to Mariënborg with a length of ca. 2 km
- The road from Alkmaar to Mon Tresor ca. 3 km.
- The road to Peperpot at Meerzorg with a length of ca. 6 km
- The Pandit Moerliweg at Meerzorg with a length of ca. 4 km
- The Reebergweg at Tamanredjo with a length of ca. 3 km

**5.10 In the District Marowijne we have the following secondary roads :**

- The Julianaweg – Lijnweg from the Sawmill to Burnsideweg with a length of ca. 6 km.
- The Burnsideweg from Julianaweg to Oost-West Verbinding with a lenh of ca. 4 km
- The Abraham Crijssenlaan with a length of ca .1 km
- The Luitenant Weyneweg at Albina with a length of ca. 1 km
- The road to Erowarte and Taphoekoe with a lenghe of ca. 6 km.
- The road to Papatam with a length of ca. 4 km.
